APPLICANT : MAZDA MOTOR CORP;

INVENTOR : YOSHIMURA KOJI;

INT.CL. : H03G 5/00

TITLE : AUDIO EQUIPMENT FOR  
AUTOMOBILE

**ABSTRACT :** PURPOSE: To apply tone control in response to the user's preference by providing a frequency characteristic setting circuit by type controlling a B/M/T tone controller.

**CONSTITUTION:** When any of genre selection switches 9 is turned on, a defeat switch 17 is set, a defeat signal 'Hi' is fed to a preamplifier 11, which is set to a low gain. In this case, a sound signal inputted to the frequency characteristic setting circuit 8 by type is processed in response to the frequency set by the circuit 8 and inputted to the B/M/T (low/medium/high) tone controller 10. Then the sound signal is processed according to the user's preference by adjusting the B/M/T controller 10 depending on the user's preference.
